

## PLAYER MILESTONES AND GAME DAY AWARDS

Team managers / coaches are required to establish the number of games played by individual players at the commencement of each season.

Points to remember:

- Coaches end of year reports will require season games and total career games
- Milestone games can only be recognised if game tallies are recorded and are up to date
- Players transferring in should also be considered, games played at previous club/s etc.
- EFL data on game tallies is patchy at best and should be used as a guide only
- EFL sanctioned Lightning Premierhips count for 1 game
- Players playing up a grade to fill in after a game in a lower grade are also entitled to have an extra games added to their tally
